

ADVANCED
TECHNOLOGY FOR A
CLEANER FUTURE®

Clean Cat™ Diesel Oxidation Catalyst & Clean Cat HP™ High Performance DOC

Features

- EPA Level I+ emission standards compliant
- Meets 2009 NO2 regulations
- Superior filtration efficiency of Particulate Matter (PM)
 - **Clean Cat™ - greater than 25%**
 - **Clean Cat HP™ - greater than 40%**
- HC & CO reductions greater than 60%
- Incorporates ESW Proprietary wire mesh substrate
- All stainless steel housing construction
- Maximum mechanical vibration durability
- High thermal shock characteristics

Applications

- On-Road Vehicles
- Off-Road Vehicles

Competitive Advantage

- Economical option to comply with the latest emissions standards
- No driver interaction required
- No fuel penalty
- Extremely compact design for easy vehicle fit and installation
- No maintenance required
- No minimum temperature profile required
- No data logging required
- Available in custom design to directly replace OEM muffler
- Available as stand alone product or in combination with a Closed Crankcase Ventilation System
